Grace Norwich has written many books for young readers on a variety of topics, including health, fashion, animals, and more. She lives in Brooklyn, New York.

This was used for a class project for my daughter. She struggles with reading sometimes, and I was hoping this book would be easier than the original that we bought. She’s 9 and this book was for 7-9. We still had to read most of it to her... but I don’t want to harp on that because ancient Egypt isn’t the easiest topic and I understand that they did the best they could.Additionally, the book ends with a reference to her suicide. They are careful to point out that suicide was viewed as honorable

back then, but they don’t say that today it is not viewed the same way (and shouldn’t be). It opened up a healthy conversation with my daughter, and that’s OK, but I want other parents to know and be prepared.

She had five kids? Really? I never knew that! Very interesting book for young minds who want to know more about Egypt or the mystery of Cleopatra!

I think it is fascinating because of all that she did in her life.I would recommend this book to a person who like romantic true stories
