Customer Reviews

I have ordered several varieties of these books for my now 4-yr-old grandson to help him remain quiet during sermon times at church. He has enjoyed them for the last year on the Sundays he is with me. I sent a version with larger stickers along with my 18 month-old granddaughter for a recent plane trip with her parents. Although she can’t do them alone, with help, it also occupied her for part of the flight without disturbing others around their seats. Stickers don’t always easily come off the paper and after they sit for a couple weeks they often tear when repositioning as advertised as reusable. Artwork and colors are great.

It’s a book with a bunch of animal stickers and a page with the picture of Noah’s Ark... not worth the

$1.99 I paid for it.

I was a little disappointed by the size of this book... it's hardly bigger than my iPhone! But for the price I'll keep it and see what my nieces think! It's pretty cute. Just small.

While the stickers may be repositionable, I would consider these a one-time play item. When you remove the stickers from the center, the picture often gets ripped where the staples were. Then after you position the stickers, there is no place to move the stickers to so that you can do it again. It's fun, but really just for the one time.

Great for baby shower or kids bday parties. Very cute. Was going to use for pin the animal on the ark game with poster paper. But we ran out of time so I gave it to one of the kids as a favor.

Small book should have looked at dimensions

I bought a bunch of these activity books for my toddler to use during church, or other quiet times. The Noah's Ark book actually has a scene of Noah's Ark where you can put the animal stickers, Noah and his wife. Some of the sticker books just have stickers in it, but not this one. My toddler likes it better then just the stickers because there is somewhere to put them.

Was disappointed in size of book... small. Would not buy again.
