Synopsis

The PimsleurÃ Â® Method teaches speaking and understanding right from the start For almost 50 years, in over 50 languages, the PimsleurÃ Â® Method has been recognized by experts worldwide as one of the fastest and most effective ways to learn to speak another language. With Pimsleur you will learn Russian in the same way you learned your first language as a child, acquiring the vocabulary of the new language, along with the melody, rhythm, and intonation of Russian as used in everyday conversation. The Science of Memory Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out Russian, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "Russian eyes." And you will learn to read Russian without an English accent. Learn on the Go!goRussian makes it easier than ever to use the Pimsleur programs by including the spoken lessons in two audio formats. Now you can listen anytime, anywhere: in your car or at home and on your MP3 player. Customer Reviews

Dr. Paul Pimsleur devoted his life to language teaching and testing and was one of the worldÃ¢â ¬â„¢s leading experts in applied linguistics. After years of experience and research, Dr. Pimsleur developed The Pimsleur Method based on two key principles:Ã Â the Principle of Anticipation and a scientific principle of memory training that he called Ã¢â ¬Å“Graduated Interval Recall.Ã¢â ¬Â•Ã Â This Method has been applied to the many levels and languages of the Pimsleur Programs.

This is my first serious attempt at learning a second language. Because of this, I'm not in a position to compare Pimsleur's lessons with Rosetta Stone, etc. to see which one works best.Instead, I can definitely say two things about Pimsleur's GoRussian:1. These lessons (8 audio, plus written lessons) succeeded in teaching me introductory Russian in a manner that I've remembered pretty much everything they taught. I can now use what I've learned to speak with native Russians (nemnogo, at least).2. In addition to being educational, they're also fun to do. Which is almost as important.My procedure has been to listen to each 30 min. audio lesson twice, then afterwards look up correct spellings of the words I've learned. Learning the spellings definitely has helped me speak each word correctly.In addition to the written lessons, the included reading book contains: biographical information about Paul Pimsleur, how his linguistic method works, how to properly complete both the audio and written lessons, and how to decode and pronounce Russia's Cyrillic alphabet.One inclusion I'm particularly happy about is the $100 Instant Credit in this package, which you can use to buy Pimsleur's Russian 1, Comprehensive containing 30 lessons. After all, what you're buying here is basically an appetizer. After you complete it, you can move on to the entree.If

you’re interested in learning Russian, I strongly recommend buying and using Pimsleur’s GoRussian as the first step you take.
