My girls (ages 3 and 6) have been in love with the new Sofia the First Series on Disney Junior since it came out. We were thrilled to see that they were starting to release some paperback books and we pre-ordered the first three books (The Royal Slumber Party, Sofia Makes a Friend and Welcome to Royal Prep) as soon as we could. They arrived a day before the release date from and we read all three of them that night as a family for their bedtime stories. They were all a big hit. We have

already pre-ordered several more that will be released over the next few months."The Royal Slumber Party" was a great adaptation of the TV Episode "The Big Sleepover". It is about Sofia and her Stepsister Amber having their friends over to the castle for a sleepover. Unfortunately, Sofia's friends from her old village, dubbed "village girls," don't quite fit in with Amber and her princess friends. They just want to have fun while Amber wants everything to be proper. Sofia tries to get them to fit in by changing them, but the friends just end up wanting to go home. In the end, all the girls learn how to have fun together and Sofia learns a valuable lesson about how you should like your friends for who they are, and not who you thing they should be. The inside back cover of the book has a fitting "Princess Lesson" that states "A true princess treats people with kindness."Overall, this book has a great story with really nice artwork on high quality glossy paper. It has a nice happy ending and teaches a valuable lesson. It is a longer book that can develop into a more advanced reading book as your child's reading skills develop. I always like to ask my girls what they thought about the story. My 6 year old said that the story was "Great!" and her favorite part was the "second slumber party" meaning in the end when all the girls started having fun together. She also said she "liked when they make stories like the TV show." My 3 year old said "It was Beautiful!" and her favorite part was "the whole thing." My girls were very excited when we brought the book out and they really enjoyed it. As a parent, I appreciate how this book and TV Series has fun and positive storylines with great lessons for your children. This book makes a great addition to our storybook collection. Highly Recommended!==========QUICK UPDATE (06/05/2013):I have noticed a few negative reviews on this book and I wanted to make you aware that these seem to be for the KINDLE EBOOK VERSION which appears to have some problems at the moment. My review was for the PAPERBACK BOOK VERSION and my copy looks perfect, with great illustrations and color. So if you are planning on buying the Paperback book, you shouldn't have any quality issues to be concerned with. Still highly recommended.

My daughter absolutely loves Sofia the First, and when we travel, I like to download digital copies of her favorite books for story time. Unfortunately, this and several other Disney books refuse to render properly on the Kindle app. Specifically, the font is tiny and seemingly randomly placed (often times on top of the characters), many of the images are not properly sized and seem poorly cropped, and in some cases, there are no images at all, just really tiny text.I've tried deleting the book and downloading again, but the issues persist across multiple devices. Either or Disney need to take a look as this is happening across several books.As for the story, well, my 3yr old daughter likes it. If/when this starts to work in Kindle, I'll update my rating.

Cute book based off of the Sophia the First shows. I have been a big fan of Golden Books ever since I was younger and was so happy to know that they still make these books. Book is the perfect length to keep my daughter's full attention. The words are also simple enough to understand. My daughter especially loves the photos as she points out all the characters from the shows. Cute children's bedtime story. I recommend it!

My daughter loves this story and I love my daughter so I read it to her. It's much more bearable than most children's books. OMG I loathe Dora and Caillou.

Great book. The show is more cute and fun but I like the book also. The drawings are really good.

All markers were dried out. I wish I would have read reviews before purchasing this item!

Good Book!

My 7 and 3 year old daughters love Sofia the First. This is a great little book that follows the episode of this cartoon pretty closely. My girls love it.
