Flawless. Thank you!

As listed...Thx

Book arrived a little bit slower than I planned but was exactly what I expected

Good method, even for adults.

The Essential Technique series of books is a learning system that is extraordinarily effective for even the "greenest" of novice musical students. It takes things one small step at a time but retains the ability for you to see and feel notable improvements session over session - even WITHIN sessions.I liken the effectiveness of the training (believe it or not) to when I was undergoing flight training on my way to becoming a private pilot. To flip pages and look into later lessons of the book could be daunting - "I'm going be to able to do THAT?!?!?!" But their learning system (like flight training) is such that the learned components are fed in very manageable bite-sized chunks that build upon each other.Add to this the downloadable accompaniments and rather than just hearing your fairly simple parts being played alone, you hear them amid a full band. This gives even simple lessons a sense of purpose and achievement that make you just want to do more and more.
