Customer Reviews

I've always had difficulties with exfoliating my skin and I prefer natural soaps and other products, so this book was right up my alley. I'm glad I downloaded it because now I can make my own all-natural organic body scrubs at home. The recipes are super easy. I mean I already have the ingredients for some of these in my kitchen right now. I highly recommend this book.

Love these cool & organic recipes! It is great that some of them are body scrubs and the other recipes are dedicated for use on the face. Recipes contain good amount of ingredients, instructions are easy to follow and well explained. I am very satisfied.

This book is really helpful! There will come to a point on a girl's life that something will grow on your skin LOL! You just can't avoid it! It's actually really useful for me personally because it's actually costing me a lot to buy skin care products. This book totally placed me back to my budget because I don't have to spend a lot anymore! These homemade recipes rocks!!! Totally recommend this!

This is a great little book for making home made body scrubs and information on having good skin! it explains the need for scrubs to have radiant skin, why exfoliation helps skin diseases and the benefits of home made scrubs. There is also a great set of home made body scrubs recipes to try making at home. Easy reading and a great reference book!

You won't have to go to Bath and Body Works at the mall ever again. Great recipes for any fan of body scrubs. Also a lot of great DIY gift ideas as you can make these for anyone in your family or friends, while saving a lot of $$ in the process. For these reasons, this is a good one to check out!

I tried several of the recipes and they all worked with a bit of tweaks here and there. I have definitely

noticed the difference in my skins complexion thanks to the scrubs and can recommend it to anyone looking to use something different from a factory made cleanser.

Step-by-step recipes, precisely defined amounts of ingredients. Easy and simple-the way i like it.

Great book
