love all the burgers ,happy to see so many food i could make burgers from.

This book is helpful but there are a few repetition among recipes which make me very confused.Overall, this book is okay about the topic Veggie Burgers. ItÃƒÂ¢Ã â ¬Ã â„¢s helpful for people who want to prepare burgers for their family or friends.

Receipes look good but they do not list calories, carbs, fiber, protein. Huge let down. May not be able to make anything in the book because of that.

My Wife got us this book because we have both gone 100% vegetarian. I love being vegetarian our health has improved and love the fact that I don't harm any animals anymore. But not going to lie. I love myself a great American Burger! Grew up in New York, the burger joints there are amazing. I gotta say we have only tried 1 recipes from this book, but its the best burger I have ever had! There something about the sweet and salty tasty the I can't explain. Anyways excited to try all other recipes that look equally delcious. Amazing book! And the Price is Crazy for the value!

Love the vegetarian recipes in this book! Tried the millet burges and they werre good.
