Synopsis

This up-to-date and comprehensive set of two CD-ROM discs provides a superb collection of official Federal government documents on thyroid cancer: signs and symptoms, diagnosis, lab tests, treatment and management options, and ongoing clinical research. Every aspect of the disease is thoroughly covered. Thyroid cancer forms in the thyroid gland (an organ at the base of the throat that makes hormones that help control heart rate, blood pressure, body temperature, and weight). Four main types of thyroid cancer are papillary, follicular, medullary, and anaplastic thyroid cancer. The four types are based on how the cancer cells look under a microscope. Coverage includes treatment, including surgery, chemotherapy, radiation therapy, immunotherapy, and vaccine therapy. For patients, practical information is provided in clearly written patient education documents. For medical professionals, doctor references and texts have detailed technical information and clinical background material. Documents from the National Cancer Institute, Centers for Disease Control and Prevention (CDC), Food and Drug Administration (FDA), National Institutes of Health (NIH), Environmental Protection Agency (EPA), Medline, Centers for Medicare and Medicaid Services (CMS), and Occupational Health and Safety Administration (OSHA) are included. In addition to disease-specific information, there is extensive coverage of the broad subject of cancer and its prevention and treatment (surgery, chemotherapy, radiation, advanced treatments, managing side effects). There is no other reference that is as fast, convenient, and portable - everything you need to know, from the federal sources you trust. Since navigating the Internet to find medical information can be confusing, our exclusive "Guide to Leading Medical Websites 2009" has updated links to the 67 best sites! Weblinks let you quickly check for the latest clinical updates directly from the government and the best commercial portals, news sites, reference/textbook/non-commercial portals, and health organizations.
