I ordered this book hoping to learn to play the Tenor Recorder. This book arrived in perfect condition and is very well organized. It starts with the most basic notes and has different exercises using those notes, and gradually introduces new notes and exercises. My only problem is that I already knew how to read music from my younger days in band, and I found myself rushing thru the exercises. That made it difficult for me to remember the fingerings of the new notes. I suggest practicing each exercise, regardless of how simple it may seem. This is to help your fingers remember the notes.I would highly recommend using this book if you’re learning to play the soprano or tenor recorders. This book is NOT for the alto or bass recorders.
