Customer Reviews

Her voice tunes you out not in. I wish there was an Audio version of PM and CAPM knowledge available but there isn't. I tried using this for the hot topics and studying and found it more a hindrance than a help. Her voice holds no emphasis or interest in the topic she's discussing and it's obvious. She could have been telling me how to make brownies and if someone's enthusiasm level hinders your own this is definitely not for you.

LOVE LOVE LOVE this product. I have an hour ride to work and then back every day and this was perfect. There is so much that can be done in that hour and this audio was so help in aiding in learning the information for the test. Along with the book and flip cards they were perfect tools.

What a difference these CDs have made! Highly recommended.I don't agree with the reviews that say the voice is boring. PMBOK info isn't thrilling but the narration is perfectly fine. The topics covered are useful and that's all that matters.

Prepping for PmP boot camp next week, and the material is spot on. Perhaps some people don't like the speaker's voice, but I don't care-I do care about the information presented.

Ordered this audio CD, and it arrived with a CD inside!!!!
