Customer Reviews

Ah, this book is something else, great instruction however, I was very disappointed that the photo in the first few project were hard to see as the background was nearly the sam color as the project cord. Not a good Idea. If I had seen this book in a book store I would not have purchased it for the simple reason as stated.

This book of instructions for me is much better than the TIAT books which are pricey and duplicative and many of the instructions are confusing.This book is written by a teacher and it shows. Great

buy!

Great training aide for the beginner. Both written instructions and pictures are good.

It’s good, just wish it had some other interesting items to make. I’ve seen monkey fists and all kinds of other cool things online. This is just bracelets and a regular braid necklace / lanyard.

As advertised.

ok

This book is awesome! Super easy to follow, step-by-step, pictured instructions. I never attempted the more complicated Sinnets until this book. Thanks so much. Hope author writes another book with even more projects.
