Synopsis

This casebook presents a functional approach to Trusts and Estates. In addition to a focus on recent cases, the book uses questions and problems to focus student attention on issues that face estate planners, litigators and policy makers. In each chapter, it integrates discussion of drafting and planning issues with its treatment of doctrine and policy. In addition, this casebook is accompanied by power point slides to use in explaining concepts for which diagrams are useful, such as intestate succession, the elective share, anti-lapse statutes, abatement and future interests.
