Roger Priddy's passion for educating children through fun, informative and engaging books has led him to create some of publishing's most enduring and successful non-fiction early learning books. Roger lives in London and has three children, who have been the inspiration behind many of his best publishing ideas.

I bought this for my son to bring in his diaper bag to church. I needed more books that he could enjoy and help him sit quietly.My son is 13 months old. He likes this book but I think all the pages are very similar. Many, if not all the pages feel the same, that is all the animals are furry, so every page has some sort of fur, just different colors of fur. Very boring in my opinion. I wish they had animals with scales or something.For the price, I suppose it's not bad. It's small so it's easy to transport and easy for little hands to grab/hold.

This quickly became a instant fabvorite for my 11 month old twins. The book isvery simple. The

pictures are great. They love to interact with the pages. I have memorized the book so as they hold and turn pages I am reciting the words. My twins are teething so since it is cardboard it has teeth marks and bites. If there is a more indistructable medium than cardboard I would suggest that baby books be made of that. Arrived on time, is as decribed, would order from seller again.

Nice board book. So far my 2-year-old granddaughter has not torn up the touch and feel parts. My grandchildren love animals. So I am well pleased with this book.

My 6 month old daughter loves this book. The touch and feel aspect is really good and she likes the story it tells about each animal. It is also small enough for her to hold and turn the pages.

My son squeals whenever I open the book. He loves the textures, the colors, aND he loves the rhyming in the book.

This book is adorable, my baby loves it...and the reason I am not giving this book all five stars is because they have a picture of a CHIMPANZEE but the book calls it a MONKEY. The chimp is part of the ape family, all five species in the ape family do not have tails. A monkey is not an ape and thus, always has a tail. I realize it’s a book intended for a baby, but it’s never too early to learn some basic scientific facts. The editor is asleep at the wheel.

My son loves this book, so cute and small enough for diaper bag

By far the best "read and feel" book we’ve bought. Very durable and the sections to feel will hold up over time. Great colors and catches your kids’ attention! Our 16 month old LOVES it! Highly recommend!
