Illus. in full color. Big Bird and his pals are featured in this giant (16'' x 24'') board book. Six colorful panoramic scenes teach important early learning concepts: counting, naming colors, opposites, and more. Preschoolers will love to pore over the clearly labeled details in this show-stopper of a book.

I gave this little Big Bird Book for my grand daughter's 2 yr birthday. I hope she likes it and wish she understands that it was given by her grandpa faraway in Korea.

our kids absolutely loved this book. They could crawl on it when they were too young to read, and

as they grew it became fun and educational. We loved it because it is washable! It is now my go-to baby gift.

I lost this book in a flood. I was so happy to get it or the price. I get to share this book with my grand sons as I did their fathers. Memories!!!

This is a terrific book. I have purchased about twenty of them over the years for my g-kids and all of my friends who have little ones. Every parent raves about how much their child enjoys the book!

My kids loved learning with Big Bird ! I remember the smiles that spread across Andrea and Lauren's faces when Big Bird's Big Book was our choice for reading ! Thanks Bird !

Great book, so much to see and talk about.

Our favorite, for years

Nowhere in the write-up for this book does it say that the book is 2 feet tall! I thought that it would be big in contents, but instead it is just ridiculously oversized. I wouldn't have minded it if I had know beforehand, but I had it shipped to my house for my granddaughter who was visiting. The book does not fit into luggage, so now I am stuck with the book! The contents are cute and fun, but must give the reader a better description.
