Customer Reviews

This short booklet goes over some aspects of volleyball but seems to be written by a 4th grade level writer.The explanation are most often imprecise, the paragraphs end mostly with the very same words as they start.Some of the rules are mentioned but. to really explained.It’s only a few dollars, but a fees dollars wasted at that!Go find some other book on Volleyball. The author may be a good player bit most certainly lacks the ability to express herself clearly and concisely.

This very short ’book’ probably began as a high school paper and with lots of blank pages and large type it was made into a book. Very little useful information on volleyball. Even at $5 I feel ripped off. Plus I paid shipping. Bad deal all around.

Completely worthless drivel. It jumps from speaking to the reader like they are a complete idiot to using advanced terms. And did they really spend two pages discussing volleyball shoes? It’s not worth he $2.99 price tag.

Good basic book for those with little or no knowledge of the game of volleyball. Simplifies skills and concepts nicely.
