Synopsis

Bali’s culture is a blend of ancient traditions and influences from the outside world, with the Balinese sense of art expressed in their art and design, architecture and music. In this book, illustrations present a view of the architecture, interiors and objects that are the essence of Bali’s style. From bamboo dwellings to contemporary Bali homes, from panoramic vistas to pictures of the elaborate stonework in Hindu temples - various aspects of this distinctive culture are examined. --This text refers to an out of print or unavailable edition of this title.

More than 200 full-page color photos capture the essence of the Indonesian island’s architectural and interior design style, which ranges from relatively primitive bamboo dwellings to classy contemporary homes. Bali art forms are also included in a beautiful, detailed coverage of the Indonesian island’s culture, history, and art. -- Midwest Book Review

A beautiful book depicting the subtle style of Bali.

Bought this for a friend who is a frequent visitor to Bali and an art collector. Beautifully written and illustrated, the book now occupies a coveted spot in his Manhattan Condo...

Thank you.

Excellent photos of the best houses, building materials, gardens, fabric, crafts, and architectural details in Bali. Very beautiful as a coffee table book, quite useful as a style reference book.The text is very nicely written, without repetition or fluff; it serves mainly to illuminate the huge variety of photographs. In other words, the reader will learn a little about Balinese geography, sensibility and culture from Walker, but not in intricate detail or with scholarly authority. I read it cover to cover in a couple of days, and felt it was a decent grounding in Bali style.Author, editor and photographer should be praised for finding examples of all kinds of Bali style: garish, sublime, fancy, plain, funky, sophisticated, folksy, casual, formal, sacred.A solid overview, useful to decorators, architects, mere Bali fans.

This book is very usefull to all people who live in countries with sunny all year around climate,with a temperature never below 22Ãƒâ Â Â Celcius.Of course wind is out of question!!: Is a very pleasent way of decorating in a different way your summer house,in a summer place..
