Synopsis

Derek Blasberg is back with more brilliant commentary on what makes a lady truly classy. With all the razor-sharp insights of Classy plus new, never-before-seen pages packed with Derek's signature wit and timeless tips, VeryClassy is the best - and the only - resource for the up-to-the minute, modern young woman. Today's fast-maturing youth culture is confounded by a whole slew of classy conundrums. Like, "Is a funeral an acceptable place to meet a guy?" (No, the point of a funeral is to ponder how someone has touched your life, not how you hope someone is going to touch you later that night). And, "Should I wear my Wonderbra to the gym?" (No! Gyms are for exercise, not cleavage.) Even if you're so confident, you've been attracting guys like a honey-dipped man magnet for years - VeryClassy still has something for you. This illustrated volume is packed with advice for the girl who doesn't want to be a Relationship Chameleon, the girl who understands that skinny fat is worse than just plain fat, and the girl who needs a little help discovering the silver lining of a hangover. Very Classy is the ultimate guide for discerning this generationÃƒâ ¢s ladies from the tramps.

I did not enjoy this book, in fact I found it so uninteresting that i have put it down and do not intend to finish it. Without wanting to be too negative in my review I will just say this - there are so many wonderful books out there to read, this unfortunately is not one of them.

I found this book while I read a magazine (In stlye USA), There are many recommedation about this " great book of style all the time"(let them say)Unfortunatly this book is not for the those who look fotr the styling guide(this" classy: mean here is lifestyle not fashion style) more like but certainly give some ideas about how to manage a life without look messy. But still the style suggest by this book is too posh in my taste which generally very high standard(let say how many time we are invited black tie party with ball gown? or how many of us having a dress call "almost bare, not totally naked?")If you looking for the classic life style guide book this book is for you but if you lookig for a book about classic style, please try others

Slut shaming, judgmental, vapid... If we all followed this book, the world would be full of bitchy, basic prudes.

I enjoyed it as a narrative. It has a lot of stories that were pretty funny. The etiquette tips were good, too. Definitely not a true etiquette book, though.

I thought it was too all over the place. Also, it is very superficial. The author does offer good pointers though.

If you already own the original, like I do, you don’t need this. There are just a few new additions, but it’s nothing major.

If you read Classy by Derek Blasberg and you were super excited to get Very Classy, don’t be. It’s

pretty much the exact same book with just a little bit more material.. on top of that the new material is kind of annoying because he’s basically just name dropping.

Funny and educational! Loved it! Great tips, great advice and easy read! More women should read this, especially in the Midwest!
