This was a pamphlet written only for women.

Work!!!

Not worth the time

Are experiencing a extreme pain during your break-up with your ex. This book will help you in many ways such as how to get back your ex in an easy way. I found it so cool and realistic as well. There are lot of readers that can relate with the topic from this book. There are strategies and tips to solve your problems in terms of break-up. Every insights within this book are relevant and helpful.

The book offers some counter intuitive yet effective advice to get your ex back.Even if you do not get your ex back, you will still end up gaining a lot in terms ofself confidence and self esteem. The book offers a practical step by step approachoffering your help in a time you need the most. Nice ideas to play with here .I liked the concept of no contact rule to let the other person realize what

importance youhad in his life. Sometimes we need to actually distance ourselves from the one we have lovedfor them to realize that they love us as well.

This book is an interesting material to read. The author commenced on the reason why you still want to get back to your ex and your motives. Understanding the steps and suggestions given were quite amusing and straightforward, which I certainly approved.

This book is full of great tips and advice for getting your ex back. Although none of this is guaranteed to work, there is a ton of valuable information that you may never have thought of before! I will be using many of these tips to help drive my ex back to me.

This is probably good for some relationships but if you’re guy is worried he lost you to someone else and you stop talking to him to try to get him back it won’t work! We lost months together because I stopped talking to him after the break up. It has some good advice but take it all "with a grain of salt."
