Customer Reviews

Please don’t waste your dollar on this. if you do not know how to draw, these few pages will absolutely not help you. If a novice could do this, they wouldn’t need the book anywy.

The there is no teaching, the author simply draws a square over the drawing, divides it into 4, and tells the reader to draw what you see in each box

Like the one for lilies I got this to help get the windows painted for Easter and needed a simple

guide for layout of the flowers and I didn't want to have a book that had flowers I wasn't going to use This way I can use it later also,

It was very helpful and I enjoyed it. I enjoy drawing and this took me step by step on the correct way to draw roses.
