Customer Reviews

I've lived in New Mexico so I have seen many of the locations written about in this book. I would like to have had the author expand the stories by adding a little more what, where, why. The stories needed a little more meat. Those ghost story aficionados know what I'm talking about. the goose bump factor. It was a short book, the photos. were outstanding, the text read like a travel brochure. Just the facts mam. A good effort and well written. Visit these sites if you can.

This was a very poor try. Honestly if this is all the author can come up with....then BOO. Do not waste your money.
