Synopsis

"The most comrpehensive study of rape ever offered to the public...It forces readers to take a fresh look at their own attitudes toward this devastating crime."NEWSWEEKAs powerful and timely now as when it was first published, AGAINST OUR WILL stands as a unique document of the history of politics, the sociology of rape and the inherent and ingrained inequality of men and women under the law. In lucid, persuasive prose, Brownmiller has created a definitive, devastating work of lasting social importance.Chosen by THE NEW YORK TIMES BOOK REVIEW as One of the Outstanding Books of the Year

Susan BrownmillerÃ Â is the author ofÃ Â Against Our Will: Men, Women and Rape; Waverly Place, a novel; andÃ Â Shirley Chisholm, a biography for children. She has written for The New

York Times,Ã Â The Village Voice,Ã Â Esquire,Ã Â Vogue,Ã Â Rolling Stone,Ã Â The Nation, and many other publications. Brownmiller lives in New York City.

Learn the history behind our Western world rape culture; Everyone should read it! I reread after more than 30 years and find it totally apropoÃƒÂ¢Ã â ¬Ã â s today.

A interesting read that has help in the teaching with a rape aggression defense class.

This is actually a good book for both men and women to read. it's also good to read because it shows ignorant men(as well as women) can be of a woman's outlook on life and herself. I would say it's fair and balanced and not a radical feminist man bashing book. Writing is good and clear which makes it easy to read.

Highly recommend this book if you like this type of read, may be too intense for some people, but I love these. Also try Weaverly Place.

Susan Brownmiller is a go to for scholars of GBV and genocide. I have read the works of scholars in the field and inevitably this book is mentioned. This is a must have for researchers in the field. I recommend this book and the seller. Great. 5 stars.

Rape has a long history in the world, in all civilizations. This book has been making me angry for 30 years - with reason. It explains, in factual detail, the history of laws, customs and conventions that have been created to restrain and control women - efforts which are ongoing now, and are described in the news every day. Example: some of the earliest laws against rape were essentially property laws, intended to protect male ownership. Ms. Brownmiller explains clearly how this has come about, suggesting why women's rights are seen as threatening . It's not an easy read, but an important one.

It's an excellent, very complete study about rape.

I enjoyed reading about the origins of Costa Rica's national parks. I found it thoughtfully written, and would love an update as this only takes us to a quarter of a century ago.
