## Customer Reviews

Having read "Animal Speak", and still working with it, I am grateful I was lead to this Great tool to augment my connection with the Animal Spirits. Mr. Andrews has contributed immensely to my Spiritual path by opening doors to a whole new way of perceiving this reality physically and non-physically and the "Animal-Speak Runes" came in in the most appropriate moment of my current experience.Great Energy and very accurate readings as proven by my own "Daily Rune" method and weekly review of the daily messages received plus a weekly overview of the situation at hand. If you feel the call, follow your heart. You will not be disappointed. With my sincere gratitude Mr. Andrews.

This is perhaps my favorite of any divination tool Ted Andrews has produced. It contains 40 "animal runes" in a faux silk bag and accompanying book. Of all his work that has been produced in China, this has the best quality I've seen to date.The messages are clear and precise. To this point, they have been right on the money. His book descriptions are not merely copy and paste from his Animal

Speak book, which is a great accompaniment to these runes and adds depth to the included book.Ted states in the beginning of the accompanying book that these are not traditional runes, so if anyone wants to argue that they are not, that is all well and good. They serve the purpose they were intended for. I've never used runes of any kind, so I can't make a judgment one way or the other if they are truly "runes." I'm just happy to use them for what I'm seeking.On October 24, 2009 Ted left this world. I had an opportunity to see him teach and meet with him when he was back home here in Dayton a couple of years ago. He was a great teacher and had a zest for life that I have rarely encountered in my time here. He certainly was one of a kind and his legacy will live on through his work.

I love Ted Andrews works and loved these as well. 40 Runes in a great pouch. MANY more totems/animals in this set than most card decks. Also includes life cycle and environmental runes such as "Camouflage, mating" etc.

With several of Ted Andrews books in my library I was actually beginning to work on creating my own "runes", perhaps cutting them from a single maple branch and burning pictograms onto them. Then it became painfully apparent that I am no artist and probably would be years before I could get it done. Then one day, looking through  for something else, Lo and behold, I ran across his Animal Speak Runes. This should hold me over in the meanwhile. Upon receiving them in the mail and with a little ceremony, I thought I'd give them a try, not really expecting anything really accurate right away. Much to my surprise, the readings I did were amazingly relevant. I do a "Celtic Minor" with my Tarot (sans the staff) and did a similar arrangement with the Runes. I was impressed. It's a small and diminutive set but that's the beauty of it. Easy to carry around, no need to "shuffle", and the spread is small enough to fit on one of my more massive Lenormand cards. Maybe I'll still get around to making my own set based on Mr. Andrews but will be happy with these in the meanwhile. If I don't, well these work out just fine.

These are a great tool for answering any questions one may have on any subject. The pictures on the runes themselves though start to fade after only using them a few times. I had to lacquer the pictures with clear nail varnish which did the trick. Also, the red bag is too small for the book to fit in to be portable so I had to buy a large tarot card bag online in which to carry the runes and the book. I'm hoping the publisher will make some changes after reading this. This is my second set after gifting the first one to colleagues at work. They were all amazed at how accurate the messages

were and still are. It’s the gift that keeps on giving.

These are fun, accurate and easy to understand. If you like animals and divination these are for you! I am so glad to have these. Ted Andrews was a very informative and intuitive individual and anything by him is worth reading and using. If you enjoy runes in a softer way then buy these. There is only one issue with these runes...eventually the picture side starts to wear off...I have had them for 8 months and the pictures are wearing thin..

I’m really happy with these runes. I like them a lot better than the animal medicine cards I have. I also enjoy the book that comes with it and it seems to have new (to me) information I haven’t read in other Ted Andrews books. I took off a star b/c several of my runes have a bit of something stuck in the painted part, and the images scratch off rather easily. It’s true what others say about reference to the "imitation silk bag". I thought I’d get around that by sewing my own bag, and later read that the bag should be real silk. Oh well.

I am very happy with these runes. At first I had to bond my energy with them, after that, they have been wonderful. The guidance, and insight, and advice I need at the time, are given. I just wish they had more animals- real and mythical. They show a chinese dragon on the book cover, and I thought maybe they had a rune and meaning for it, but they did not. : / I am still very happy though with my purchase. :]
