Great craftsmanship with these wooden Runes. I think the bag needs to be bigger though. I actually had a reference book that I was using before I bought these Runes and book. I now use this book instead!!!!!!!

superb, comprehensive and explains each runes, unlike most of the other info you'll get on the Internet or through other sellers...for the person who requires all information, highly recommend

I use these types of Runes every day. I take photos of my daily readings. These Runes show up well in photos.

This was a gift for a friend who always wanted a rune set. She liked her gift.

Good starting kit for reading runes. Comes in a nice box for storage. Easy to read the descriptions of the runes from the book. I'm going to keep for a long time and study it well. The seller was very informative on the product and shipped fast! Very happy.

I have always wanted one of these kits. It was very helpful for me to be able to see the theory and use of these items.

Just a bit disappointed in the quality. The book is alright but the wooden runes in my kit were pretty rough. Don't waste your money.

husband loved it. hasn't really got a chance to used it yet though. price was good and expectations were met
