Customer Reviews

Franko Maps Ltd. is known for producing the best dive and snorkel maps and guides for the Caribbean and other locations worldwide.

I got this map so my daughter could chart her cross country journey. (Nevada to PA) She did it in dry erase markers and will hang it when she gets back. We loved the look and detail including major roads. The only downside was that it arrived rolled and we were unable to flatten it. We had it weighed down for 3 days and it curled right back into the cylinder when we took the weights off. I hope the marker didn’t smear!

Needed as replacement for lost during relo...great map, durable lamination, and behind the product. Recommended buy!

Good quality map, however, the map is impossible to hang even with high tack tape, because it

wants to roll up. It is an odd size, so unless you want to spend big money for custom framing, you are out of luck.

Great laminated USA reference map to plan trips and dream on. We mounted it on the wall at eye level to view easily. A bit more detail would be nice, but size restricts that of course.

It is Okay.

ValÃƒÂºes the price

Great detail, easy to read, fantastic for planning RV adventures.

Perfect ! Exactly as needed to mark our travels. Thanks.
