Synopsis

What if all life existed because of you?Reece BryantÃ¢â ¬â„¢s everyday life of being a college med student is torn apart when she meets two mysterious men who whisk her away to a strange new realm. They plead for her to trust them, insisting they are sworn to protect her. She learns of an impossible secret about herself. If she doesn't go with them, she must face the possibility that a dangerous enemy will discover who she truly is.As Reece navigates through an enchanting kingdom, she slowly accepts her destiny. With help from the handsome Guardian, who is also the EmperorÃ¢â ¬â„¢s son, she finds herself never wishing to return to her old life.Reece adapts to this new place against everything she believes is right, but then falls in love with the wrong man, provoking dangerous consequences for all.All lives are at stake, and all realms are at the brink of destruction. Will Reece selflessly refuse her heartÃ¢â ¬â„¢s desire, or will she fight to save everything? A must-read battle between will and worlds. Scroll up and grab your copy today!Please note: This is the newly revised, extended version with bonus scenes, 2017 edition. Earning multiple awards for all books in this series, The Ancient Guardians Series is praised for the unique world and romance that is captivating readers from around the world.

Customer Reviews

Reece had to return to San Diego to settle her father's estate. After a bizarre first flight, the second flight went worry free. Strangely enough, the two handsome men that she had noticed from her first flight, seemed to always be close to her, even on her second flight. After being kidnapped by them, she landed in a new dimension. Although she learned about new dimensions, keys, and her role, she remained confused. Her kidnappers explained who they were and why she had to be protected. Reece finds that the dimension is not only beautiful, but that love is creeping up on her. This book is not only well written, but it's good enough to be read again.

I don't usually read this genre but thought it sounded interesting and decided I would give it a whirl. I was pleasantly surprised at how the story drew me in.Vivid descriptions of the world Pemdas. I could envision it very easily. I could also envision Levi, Reece, and all the others involved. I could see the story being played out. I got to the point where I didn't want to put the book down. Enough has been said in other reviews on what the story is about. I don't want to give anything away so I will not say anymore.I highly recommend this book.

I was fixated from page one none of this lead up slow start rubbish it was go go go from page one please read it don't look at the reviews I took a chance and now want to read all of them it's so different and full on.I cannot recommend it enough you are missing out if you don't and no I'm not know to the author or a friend I'm just like you looking for a fantastic read for my lunch hour and bed time and I have to tell you I was late back a few times because I couldn't stop reading lol.If you get bored with surroundings info it's not much just skip it's like half a page to a page and not often in saying that though not skip the first part because God I could almost see it so beautiful .Read the book you will enjoy I'm sure of it.

Believable fantasy and other worldly characters mixed with earthlings. I loved the balance of evil and good. Her descriptions of the other dimension were lovely and fun. I liked the fashions as well as the architecture and nature. The evil ones were powerful enough to scare me. I will need to do some lamaze breathing before I read the next one!

I was looking for a new book to read and was drawn to the cover. Once I started reading I could not

put it down. This book has everything: mystery, danger, drama, emotions, travel, and is very detailed. There are some verbiage errors but nothing that will stop you from knowing that you are being transported to another time and place to experience something you have never thought of before reading this book. Very suspenseful and creative.

OK. So, I did like the book a lot, and I really would like to read the rest of this series as well. However, I must say that the author really had to earn her credibility back after naming the dimension of the guardians Pemdas. I was expecting some mathematical punchline at the end of the book or something.But beyond that (which still makes me cringe), I very much looked forward to reading this book each night. It takes some science fiction, and mixes it with historical romance. If you're a Sci-Fi genre fan, but do not care for historical romances, you'll probably not like this book. The concept of the dimensions is a bit tough since there isn't much of the sci-fi aspect to this novel. It's sort of a back-burner to the plot that takes place in the castle & surrounding lands. And of course the mean girls/outcast aspect. The book starts out pretty fast with the kidnapping of Reece by the Pemdai, but then slows down when she's in the Guardian's dimension. It speeds back up at the end with the battle on Earth. Although I did like the story, I think it needed a bit more sci-fi in the middle.The writing is well done and the plot easy to follow. Her characters are thoroughly developed, and I can visualize them as I read. The dialogue is intriguing and interesting. At no point did I feel lost or confused. A good read, indeed. There were a few places that I had to re-read as the editor missed her mark. It did not however take away from the writing or my opinion of the book.I enjoyed this book, and am interested in reading the rest of the Ancient Guardian Series.

I love this book it is so amazing and so well written. I am so excited to read all the other books in the series and if read r this book you will the same that I have read.SO Morgan is a awesome, wonderful writer I am so proud to tell you you will not be disappointed with this book and series. I can't wait to read book 2 in the ser and I can't wait to find out more about The Author and her books. Please read her book you will not be disappointed and I love t his Author and I an going to get the rest of the books. Thank you SL Morgan for your writing and your books. Kristentanner67@yahoo.com please send me News Letters with more information on a your wonderful and amazing books. Your greatest reader and I hope to hear from you soon. Kristen Tanned.

I got this via Book Bub for free, and I wasn't disappointed. In fact, I was pleasantly surprised. In

typical Book Bub fashion, the first in the series is free and then you have to pay for the follow ups. Usually, I'll read the first and not be invested enough to continue. This is one series that I have no doubts I'll be continuing, and I'll gladly put money down to do so. The world of Pemdas fascinated me, with its antiquated dress and customs and its advanced technology. I feel like some of the characters could have been fleshed out a bit more, but that didn't stop me from becoming enchanted with their story.
