Synopsis

Bill James and the Baseball Info Solutions team of analysts continue to pack in new content, including a fresh look at the continued rise and effectiveness of The Shift and a new breakdown of home runs and long flyouts. And, as always, the book forecasts fresh hitter and pitcher projections for those looking to get an early jump on the next season.

Customer Reviews

If what you need is not in this book, you probably don’t really need it. Bill James has put out the most awesome books on baseball, baseball statistics and the history of baseball since the late 70s when he was self-published. I know. I have most of what he has written. I always get several copies of the BJ Handbook each year because they are available in December and for a baseball fan, they make the greatest Christmas gift. There is nothing else available that has the variety and quality of current statistics besides the BJ Handbook. If you can’t find it in this book it is probably not of much value. I love my BJ Handbooks!

Bill James does good research.

too much info in small print, We miss "Who's Who in Baseball" smaller book easier to find info

It was worn but useful.

I play fantasy baseball and have for many years. Couldn't do it without this book!

A good substitute for Who's Who in Baseball. More data than I need but interesting. Wish book was smaller. Still enjoyed Who's Who in Baseball better. Not sure if I would re-purchase.

great book, I buy it every year

Great book for true baseball fan!
