Customer Reviews

These little "mapEasy" guides are the only ones I use. The significant places are depicted larger than the minor sites, there’s restaurants, banks, pharmacies, etc. shown on the map along with the price points for eating establishments. I love that it’s easily folded and waterproof. This particular map details San Marco, Rialto and the shopping areas. I loaned it to a friend for her trip to Venice, and loaned the Florence and Rome maps to another friend who is Italy now too. They’re lifesavers (their words, not mine). I know these towns pretty well, but to the novice, it’s the best map to use, I believe. If I could give it 6 stars, I would.

I bought this map several years ago when we had a cruise stop in Venice. I had previously gotten one of Mapeasy’s maps for Barcelona and thought it was great so we bought their maps for Venice and Rome as well and found both were just as great.I think the Mapeasy Guidemaps are just fantastic. They are my favorite tourist maps and I fund them much easier than other tourist maps to follow and I just love the notations on them. All of our trips to Europe have been on cruises and we’ve bought these maps wherever they are available for port stops or cities we’re staying in before

or after a cruise. I've used the map for Barcelona, Rome, Florence and Venice and they are all great.

Used it for 4 days in Venice, and it was very helpful in navigating a fun city, with no streets, and only waterways. Venice is for walking, and this map sure helps find the easiest way to get around a very old city. It is a very good size, and durable. Well worth the costs, as it is double this when you look for it in Venice (if you can find it). It is way better than the free ones from the hotels. Way better!

MapEasy's Guidemap to Venice was invaluable to us and allowed us to walk everywhere without fear of getting lost. Friends we had traveled with did not have this map and they didn't have the wonderful Venice experience that we did simply because they could not find their way around very easily. I can not emphasize enough what a positive difference this map made for our visit to Venice.

I already had this map and had used it extensively. I purchased and additional one for family members hoping that it would encourage them to include Venice as part of their Italy experience..

Excellent, east to read tourist map!

Nice map but too large to carry around. I will use it for photo references though.

Recently went on a trip to Italy and this map was very useful. It is made of a sturdy almost glossy material and doesn't get torn or messed up even after carrying it around for days! My travel agent recommended MapEasy's Guides and I am glad she did.
