New Yorker Vincent Terrace has worked as a researcher for ABC television and is the television

historian for BPOLIN Productions (an independent film and television producing company for which he has created a projected television series called "April's Dream"). He has written more than 30 books, many about television and radio.

After searching You Tube and the Internet for something good to watch, I came across this book which lists a TON of shows that are available out there and I had no idea existed. I've been using this book all week to find some quality entertainment - it's like a "TV Guide" and I highly recommend it!
