Customer Reviews

Greg Carbone is Professor of Geography at the University of South Carolina. He received his Ph.D. from the University of WisconsinÃ¢â ¬â œMadison. His research interests are in climate variability and change and in climate impacts. His most recent work examines the spatial and temporal nature of drought and the use of climate change scenarios for decision making. He regularly teaches meteorology and climatology courses.

The book is great, however the rental I received had a few loose pages. It was very annoying. I had been planning on purchasing the book, but I am definitely going to return this copy & perhaps buy a hardcover.

good price and prompt delivery
