Customer Reviews

The word "why" should be removed from the title of this book. The author is very preachy and I found her incredibly unconvincing. "Because you should" is not a reason. There was a lot of potential for in-depth reasons why abstinence is the right choice for a person, but the author chose to skip over them. If I'm given more depth to the discussion, then maybe I'll be better convinced.

Without the depth, the only people the author will convince are the ones who already agree with her, and that doesn't help anyone.

If only the nations teens had this book as a text in their schoolsÃƒÂ¢Ã â ¬Ã Â| Although people of any age could benefit from the simple topics covered in this well-written book.
