This is a good map, but I really prefer the Streetwise Maps. They did not have one of Cologne so I made thisone work. It was accurate and easy to use so it worked out just fine. My Mother and I went to Europe in 2010and I bought this in late 2009 because I was trying to get our travel information all together. We started in Romefor which I did have a Streetwise Map and continued to Vienna where again I had one. I did not really need amap in Salzburg and used one provided by the hotel for the places I did need to get to. Then, we went on toCologne for the opera and this map came in handy getting around the city and to the opera house where wesaw Dame Kiri Te Kanawa in her last major role before she retired from opera and was only doing cameo roles.It was Der Rosenkavalier done in Germany in German which was special. We then went on to Brussels,Amsterdam, and Bavaria before heading back home. I had the Streetwise Maps for Brussels and Amsterdamwhich really helped us find our way around. It was a great trip and this map played a great part in it becausethe opera was the reason for the trip in the beginning. Cologne is a beautiful city and with this map we wereable to find the great cathedral and other sights that interested us.
