Customer Reviews

WOW. TOTALLY BRAND NEW,, arrived in 2 days, and its vol 1&2 together. wasn't sure based on the listing,so far very interesting, many questions boggling my mind are slowly coming into fruition, im not a reader at all,(unless a script for a movie tv show or commercial audition, i have only read 4 books cover to cover my entire life, aside from school text books and required reading(which i skimmed through) of course.and im 37 years old,i didnt realize how many good books i was missing

A Must read for those who are intrigued by this mystical Goddess and understanding the ideology behind the name of Isis.

the text size in this book is very very small

This book was one of Albert Einstiens favorites. You will understand why when you read it. It amazes the mind. Makes you question everything you thought you knew. I couldn't put it down.

Great book; understood it was in Einstein's library. Arrived promptly. Great overview of all religious/other beliefs.

This is really deep and interesting. A little difficult to read, but a must for seekers.

a very good book I have not finished it yet but I will AADeL

Recall this tome preceded the Secret Doctrine. She covers all the issues with respect to these teachings and shows how our knowledge has been successfully watered down ever since. This was 1875!
