Arrived on time and in good shape. Great reference for high schoolers and undergrads. I would use it when teaching a writing class. Clear and accurate.

I like this book better than the second book they did on Writung Short Stories. I’ve enjoyed this one very much. The service was justgreat and they sent me a very good copy of the book.

I have just started reading/using it, but it is very precise and I look forward to the help.

So far a wonderful book. It has re-energized my fiction writing and is giving me valuable instruction.

If you are novice writer and serious about writing short stories, this is THE book, you will keep nearby. As a novice writer, I have purchased many books on the subject of writing -- some good, some not so good. This is a good one. By the way, if you haven’t discovered this fact yet, "Writer’s Digest Books" will help you develop as a writer better than anything available. "Handbook of Short

Story Writing" is a superb example of their excellent resources. It will not lead you by the hand, step by step, through the process of (for example) "Creating a Lovable Character", but that's not the format of a handbook. What it will do, is give you the processes to help you focus on "Creating a Lovable Character" with an article written by a well-known, SUCCESSFUL, author. If you like having a room full of PUBLISHED AUTHORS for advice, purchase this book! I paid only ONE PENNY here, for my copy. The shipping fee was less than the gas it would have taken to drive to the bookstore.

I lost this book that I used many years ago and really needed to buy another one. I had taken the writers course and still had the notebook. This handbook was crucial to the use of the notebook. So glad I got another one. Seller was great!

This book will certainly help me write my short story if I can ever find time to do it.

I am teaching a beginning writing class for a community education class. The essays written by authors and editors are short, witty and to-the-point. Even though this book is over 35 years old, the words it contains are just as applicable today as they were in 1970 (notwithstanding mention of typewriters).I highly recommend this book to others wanting to write short stories, as well as to writing teachers.
