Customer Reviews

Ceramic and natural stone tile surfaces add both functionality and beauty and can be used effectively both inside and outside a home. Whether you’re looking for something as simple as tile for a kitchen floor, bathroom shower stall, or a patio, tile options range from basic choices to fully customized and handmade decorative pieces that are works of art in and of themselves. At first glance setting tile may seem like a big job, and some installations are, but success with most tile jobs is a matter of common sense, getting good advice, practicing techniques unfamiliar, and following the instructions. Guiding you through the tiling process from design to execution is what Tiling 1-2-3 is all about. On the following pages you’ll find more than 80 step-by-step installation, repair, and maintenance projects for your home. Each project has been reviewed by the experts at The Home Depot (R) to ensure that it’s accurate and easy to follow so you can get the job done right the first time. You’ll also find plenty of tiling tips and good advice that will save you time and money, and make every job easier Of course, some tiling jobs are best left to professionals, and it’s important to understand that you should not attempt projects beyond your level of skill and

experience until you're ready. There's a great deal of personal satisfaction to be had in using tile for the surfaces in your home. You'll add beauty and value, and every time you sit on your patio or work at your kitchen counter you'll know you've done something that the whole family can enjoy.

Super easy to follow and a must have for DIY projects

Excellent guide for beginners and intermediates.

This book gave a better incite and knowledge about tiling. I am still reading and looking at many of the suggestions and ideas given by the book.

Good experience

Will be very helpful with my projects.

even this older edition was pretty much current as far as prep work, backerboard and laying the tile.

Good explanations and photos

Thanks arrived quickly packaged well very impressed
