Founded in 1947, Hal Leonard LLC has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

A lovely beginner book, perfect for those who haven't played in a decade, or for those who are just beginning. This lovely course teaches you everything from one note at a time with practice to counting, rests, what each note is and how long it's held. In the back is the fingering charts which are clear, large, and very user friendly. This book is a fantastic starter book.

The book covers all of the information required to get started, which includes position of the lips and the proper way to blow into the trumpet. Even though I play woodwind instruments, I learned to play trumpet many years ago. After a long period of not playing and now learning to play all over again, my plan is to study each page carefully without skipping any sections or assuming knowledge of any aspect of this instrument. So far I'm learning and progressing quite well. I have used this book for other instruments as well and am quite pleased with its design.

My daughter is new to the trumpet and this is perfect. It came in today and she is already playing notes and learning the basics. A nice addition is the trumpet care showing her how to clean and care for her instrument.

Great for beginners. I am 21 years old teaching myself the trumpet. Easy to follow and has everything I need.

So far so good.

Essential basics for the player just starting out.

My daughter plays saxophone. At her school, they started withÃ Â Essential Elements 2000: Book 2 (Eb Alto Saxophone). She wanted to teach herself trumpet, so I bought her a trumpet andÃ Â Essential Elements 2000: Comprehensive Band Method: B Flat Trumpet Book 1. Within three days, she was able to belt out recognizable tunes. I'm impressed with her progress, given that

she hasn’t had any formal instruction, so much so that I might even spring for private lessons.

Just what my son needed to start 6th grade band!
