Great.

I gave this book to my daughter as a present. She loves it! the variety of locations and details are wonderful.

While the designs and drawings ate wonderful, I just that people and companies publishing colororing books would that two page drawings and designs ware impossible to display and that printing on both sides of page severely limits the choices of coloring media and also makes it harfd ton display.

I love this book! I am an avid colorer and I have more than 40 coloring books, so I have seen alot of them. I love the crisp pictures in this book. The designs are interesting. No people or animals, in case that is something you like or don't like to color. The pages can be pulled out easily without worry of ripping them and the paper is a good quality. The price is also good for what you are getting. I would recommend this book to any of my friends.
