Synopsis

This popular voice guide combines a thorough introduction to the singing process with an anthology of 60 songs. By combining coverage of how the voice works along with methodical voice building techniques, it is able to take a holistic approach, reflecting the view that the study of singing helps develop greater self-awareness of body and mind. New songs for high and low voices includes Con que la lavare (Spanish), Da Unten im Tale (Austro/German), and Dream Valley (R. Quilter).

Clifton Ware, University of Minnesota

Great book, full of songs.

I bought a brand new book, but it was used, had someones name in it. Disappointed

Enjoying the challenge of the class for which this is the text

This book is a must have for the singer of any goal- at home or on stage. It explains how your body works in relation to singing, and includes exercises to get your tone resonating crystal-clear. If you buy one book on singing, this is it. It even has a wide selection of songs inside!

Condition as written
