## Customer Reviews

Fan of Rosa and her teaching methods She uses her own method of teaching and drilling the exercises while in a fun way. Getting into her Fast Note Reading series and very easily comprehensive. The Circle of 5ths course is a absolute MUST for anybody with musical interests. It’s the firstmusic theory course that I’ve taken that doesn’t lose my interest or put me to sleep. The greatest thing that is revealed by Rosa is all the questions that can be answered by her methods from the Circle of 5ths. You’ll enjoy yourself and learn. Give it a chance.

Rosa Suen makes learning music so interesting and so much fun. I love her lessons on the internet and her books. If you want to understand the circle of fifth's grab a copy. This book will enable you to read music, play by ear, understand chord movement and even write your own songs and more.
