Every title in this series is popular with our 2nd and 3rd graders. They are Accelerated Reader leveled from 2nd - 5th. The books have plenty of good information for biography reports for our 2nd graders. The information is accurate and put together in an interesting chapter format. There are illustrations running through each book to enhance the story. The quality of the paperback is good. These are a "go to" for our students. I have many of them for this reason.

I love these books. I'm constantly looking for interesting nonfiction texts for my classroom. These are perfect for my third graders and they can not get enough of them. Kids are constantly coming up to me and telling me new facts that they have learned from the books in this series. Great for science, reading, social studies, history, vocabulary, etc. Highly recommended!
