Customer Reviews

I purchased 3 CBEST study guides and this was the best. It not only gave the answer but in the Reading Section it stated the reasoning for the answer and the Math Section actually wrote out the answers so I could see what part of the formula I missed. Great Study Guide

This book is great. I have seen other books, but they are not at all comparable compared to this one. I am great ful that Cirrus Test prep does an excellent job with relevant content. Thank you again for this valuable resource.

I would recommend this guide for anyone that is preparing for the CBEST. This guide includes two practice tests, which I found to be particularly useful by taking one before and the second after, just to check my progress (one of the tests is online). Also included in this guide are helpful test taking strategies including some that I'd never thought about. The information is straightforward and easy to understand. I also loved how well this guide is organized because it saved me lots of time in finding the information that I needed. I feel like this guide is priced much more competitively than other older guides that I've seen listed. I'd recommend this guide to others.

The CBEST is the California Basic Education Skills Test. This is the required test for anyone to become a full time or substitute teacher - and you just have to have completed 90 credit hours of college coursework or have a bachelors degree. This guide is a great way to prepare for this test. It is well written as concise. It is easy to follow ad understand. I think it would be a great review for any one looking to get a teaching certificate, no matter what state. So far, I have had no issues or problems with this book.

It is an amazing guide.
