Customer Reviews

I bought 2. 1 for me and 1 for my friend. He really likes how they are laid out. All the info that can be listed. Great way to keep track of your weapons.

It is exactly what it says it is. Thorough entry spaces for any type of transaction or record keeping. Don’t know what else to say, it didn’t change my life or lower the price of gas.

Very detailed sections, easy to fill in your information. Helps you keep track of what you have, or had in case you need to reference it for insurance or other needs.

This is a nice book. To use it for its intended purpose, it would be much better as a loose leaf design. It only allows for 75 units and only one small section for photos, which are the 2nd most important part for the insurance company. The best recommendation would be to get the book, carefully split it apart and make it a loose leaf design.

Best ledger for your guns!

Great record book. I am slow in getting my pictures posted beside the descriptions. There is way more info cells available for each firearm entry than I need, but that provides the flexibility for anyone to use and apply as needed. I just wish that I could actually fill the book with entries, but alas, I will probably never own that many weapons.

as described

excellant source for record keeping
