## Customer Reviews

At Speedy Publishing, we envision our company and publishing arm as being a premier publisher of quick-reference materials, useful reference books, fiction books in all sub-genres and creative non-fiction to both entertain and assist readers worldwide in reading a fun and exciting books and also accomplishing their educational and professional goals. We continually update our products, ensuring accuracy of information, making sure they are fun and entertaining. Our products are always available in whatever format our readers need.

This is an excellent ebook for 4th graders! As a teacher of elementary students, I would love to incorporate this ebook into a small group activity where I present a main idea or topic to the whole class and then they break up in small groups and discover more material on their own. My mind was continuously racing as I read through this book thinking of different projects I could make on this topic. It is the perfect age group to let them use a kindle to explore and what a better way to do so than with this ebook! I will totally let other teachers know of this opportunity and will keep this seller in mind with other ebooks available. I received this product free for reviewing purposes, however my opinions are all my own.

We love the Baby Professor books! We've already read the Egyptians and the Norse Mythology ones and so we jumped at the chance to read this one. I have two daughters aged 6 years and 2 years. They LOVE to read and to learn about new things, especially other cultures and places. We like this series because they have the most beautiful pictures but also because the books are perfect for their level- they aren't too wordy but have just enough information to get them to ask questions and spark some good conversations about other people and places in the world. After reading this book, my older daughter had so many questions that when we went to the library, we look for more books to learn about the Mayans. She also was able to make the connection between this book and it's information and the Mayan calendars she learned about in school. A huge plus for Mom! My youngest daughter loved the pictures and I could tell she didn't feel left out by the left of the reading. I would highly recommend this book to anyone wanting to teach their little ones about the world and its people and spark some great questions!I received this item at a discounted price in exchange for my unbiased and honesty review. If you have found this review helpful, please note so below, thank you!

The book ÃƒÂ¢Ã â ¬Ã Å“4th Grade History Book: Mayans and Incas of South AmericaÃƒÂ¢Ã â ¬Ã Â• is one of the books in a series of educational books written by Professor Baby and published by Speedy Publishing. This book, which is a part of the ÃƒÂ¢Ã â ¬Ã Å“Children's Ancient History BooksÃƒÂ¢Ã â ¬Ã Â• series, provides children with a chance to learn about history in a fun and exciting way. These books are filled with exceptional photographs and content geared towards capturing a 4th grader's attention span. Easy and fun to read! These books are excellent for use in the classroom or at home. Excellent tool to help children not only learn about the past, but it helps to encourage them to read as well.This colorful short book provides children with a brief overview of the two most dominant and advanced civilizations in history. Beautiful, detailed, colored photos along with age appropriate descriptions and fun facts about when and where the Mayans and Incas lived, how a King was chosen, what the Maya considered to be beautiful features and the advanced government system of the Incas can all be found in this book.These books are great conversation starters for children. The beautiful pictures open up a dialogue for children to express what they see and what they understand by looking at the photographs. Finally, a good tip for parents- these books are great for bedtime! Quick and easy to read, while also providing a little education to your child.I viewed the Kindle version of this book. I was able to successfully download and open the book with my Kindle App with no problems or

difficulty. I received this book at a discount in exchange for my honest review. I havenÃƒÂ¢Ã â ¬Ã â„¢t received any kind of compensation and I am not required to give a good review. I am also not associated with the seller or publisher in any way. If my review was helpful to you, please vote ÃƒÂ¢Ã â ¬Ã Å“YesÃƒÂ¢Ã â ¬Ã Â• below.

This is another book of the series of books that I got to read. This book is also amazing in terms of the pictures that are illustrating the topic. I have never seen such stunning pictures of Mayans and Incas of South America. The text is, however, lagging behind, it is a little bit too simple, especially for the 4th graders. This is basically not the quality of text you want to see. There is simply not enough information - just a couple of sentences.I have read this book free.

If you have read or downloaded other Baby Professor books then you know exactly what to expect from them. The books themselves are not very long (about 18 pages) with well written facts accompanied by amazing pictures. As with all Baby Professor books the books really take the cake and help to keep young children engaged in the book. My son is only four and has not yet entered public school but we do learning activities at home everyday and this book is just one of many that we have read when learning about history. The book comes in handy in so many different lesson plans from learning about South America, to learning about the Incas and Mayans. This is a book that we will be able to use again and again. The facts are clearly written in a way that they are easy to understand but do come off as a bit dry but that is easily fixed in the manner in which you read the book. My son loves when I read with a little more enthusiasm than is really required. We will be reading this book many times over. Overall I am happy with what I have received.I received this book for free or at a discount in exchange for my honest opinion in the form of a review and that is exactly what I have provided. My opinion has not been influenced by outside sources in any manner.
