JASON CHARLES is a professional firefighter and community organizer for the New York City Preppers Network. As a trained first-responder, he specializes in teaching preparedness from an urban perspective.

I was hoping for a bit more than just a "shopping list". I was hoping I was purchasing a pocket "how-to". Something I could carry with me when I have to bug out. I consider it a waste of money.

Great info. I gave 4 stars due to binding. It’s too time consuming and irritating when trying to read

front to back. Spiral bound may have been a better choice for ease of accessing the info. Otherwise I believe the actual info is great. I like the use of pictures and how it's written.

I'm so glad i purchased this for my survival kit. Now I can go through and see just what I need to make sure my family is ready foe any kind of emergency or a disaster. I have bought books that was a self help guide in make sure that everyone in your household was ready. Okay they where hard to read plus it wasn't as helpful as this one was. So now I have everything ready plus my car is equip with emergency items this was a really great investment for me.

This is a very good book to have. It has a lot of useful information in it and the book is like a flash card format with each gear seperated into a color coded index. Easy to find each item.

YES the binding is funky, and I dinged it a star for that. But there's a fair amount of good info inside, even for experienced preppers. How about Spiral binding for the next iteration ?

There is a lot of good information in this handout. It is concise and easy to follow.

This is a great CERT tip card! I recommended this card to all of our CERT members.

Very useful item. Unusually formatted and especially helpful for those of us who are visual. The book consists of volumes of material in a swatchbook form.
