item was like new. Received in excellent time. Will continue to purchase text books as long as I am in school. Graduate May 2013Well written book. Awesome information. The author does and excellent job with the facts and great help in the papers I have to write. Some things I was not aware of came to light. EXCELLENT INFORMATION.

This book had a lot of very good facts and history about ethnic relations, however I found it very tedious and time consuming for my adult bachelor study. It it definately a go to book for facts related to any race or ethnicity on every subject within but it is a little to detailed to have to read and take notes on for an intense bachelor program.

This is a fine text for a racial and ethnic studies course. It deals with major players and ethnic groups and provides in depth definitions.

I had to purchase this book for class, but I really enjoyed it. I like how it gives you an overview of different ethnicity and their story when coming to America. I learned a lot about my self, so I recommend it!

I was required to read this book for a class and was very upset after every reading session. The authors breed hatred and contempt for other races regardless of the culture of the reader. There are NUMEROUS unsupported statements of fact, and countless radical opinions. Worst $3.00 I have ever spent... seriously...

Cheap textbook.

The book is entirely highlighted, has scribbled notes everywhere and worn down. Although the description said it had no highlights and no notes. It wasn’t worth it at allllllll!!!!! Only reason I didn’t return it was cuz I already had homework for the class

The textbook was in better shape than what I expected. The product arrived within a few days of purchasing it. Excellent and fast service!
