Synopsis

Updated and revised to reflect the latest information on this alluring state of extremes, Rockhounding Arizona includes more than seventy of Arizona’s best rockhounding sites and their emblematic activities, from jasper hunting in the historic mining district near Bagdad to searching for gold in the Superstition Mountains and digging for turquoise at the foot of the Hieroglyphic Range. Rockhounding Arizona covers popular and commercial sites as well as little-known areas. It describes where to view mineral specimens and prehistoric artifacts at Grand Canyon and Petrified Forest national parks, as well as on tribal lands. Brimming with advice on collecting and preparing gems and minerals, this handy reference also includes maps, and directions to each site as well as to museums, rock shops, and major tracts of public land. For the beginner, it offers a complete introduction to this many-faceted hobby. For the expert, it is an outstanding guide and sourcebook.

Customer Reviews

I don’t really care for this guide. In general I love the falcon rock hounding guides. I love the Utah

and New Mexico one, but this one is lacking in comparison. It is not very clear how to find the different spots and this guide is so old most of it is invalid anyway. I say don't waste your money. I would like to see them make a new book for Arizona

Of the 75 sites listed in this book I've tried to visit some 15 of them. 2 sites could be rockhounded and the rest were posted no trespassing or fenced off and clearly not accessible. I'd have to say that I don't recommend this book.

I love these books. I have purchased several others for Nevada and Oregon. They take you to beautiful locations for rock hounding treasure hunts and they do not disappoint. If you are even moderately interested in beautiful rocks and the great outdoors, these books are the best.

pocket size reference

The book arrived in record time and is exactly as described.

Has a lot of off limit to rockhounders, maps and directions not the greatest but does have some spots listed.

I do NOT need to know what places are CLOSED to go to I would only like open places!!

The rockhounding books are very thorough with their descriptions, directions and instructions. I consider them a necessary guide when going rockhounding. I wouldn't visit Arizona without it.
