Great Map...I can't wait to go birding!

Nice map which you can write on plus it's waterproof.

It's a Map - it does what it supposed to do, what more can I say. Detail is fine and good enough to get you around the joint.

This is a great map and very helpful.

Don't rely on the petrol station symbols ; some fuels are not suitable for modern vehicles

Good map, but that would not help the country run by the communists: the poor people in Cuba have rationed food and no way to connect to Internet in order to learn how is the rest of the world progressing. The situation in Cuba reminded me of the 1948 in Eastern Europe, where I grew up with all the blistering propaganda by the communists. All problems in present day Cuba the official communists still blame on the "Embargo" posted by the USA. The $10 Billion forked out by the Soviet Union to Cuba has disappeared and there is no account were is that money. The same amount of money was given to Germany after WW II as a part of the Marshall Plan. Look at the Germany now and compare it with present day Cuba: What a disaster, just like the East Germany before unification!
