I can’t read the numerous tables in the book because they are too small to read. The tables will not enlarge although the text does. I’m going to see if I can get it on my computer also but I haven’t found out if or how to do that.

Great to "refresh" German language to people, like myself, that had previously German classes at school. For those who didn’t, may work too, even if slower.

used as a refresher from college german four years ago all came back easily

Went to Germany for a few days, and this helped tremendously with getting around and reading certain signs and information!

About a third into it. Very logical and smooth approach. German words are starting to stick. Task now is to make sentences.

This book was delivered very quickly in very good condition! This is a great simple breakdown of the German language. Useful to anyone interested in learning the basics of the language.

Explained a lot I was confessed about. I have only started reading it. I bought it to use as a reference guide to use with Rosette Stone.

Beautifully organized and paced for easy learning.
