Spencer A. Rathus received his Ph.D. from the University at Albany and is on the faculty of The College of New Jersey. His research interests include treatment of obesity and eating disorders, smoking cessation, human growth and development, methods of therapy, and sexual dysfunctions. He is the author of the widely used Rathus Assertiveness Schedule and has written several college textbooks, including PSYCH, HDEV, AIDS: WHAT EVERY STUDENT NEEDS TO KNOW, HUMAN SEXUALITY IN A CHANGING WORLD, ABNORMAL PSYCHOLOGY IN A CHANGING WORLD, and CHILDHOOD AND ADOLESCENCE: VOYAGES IN DEVELOPMENT.

I was required to buy this text for a developmental psychology course. Quite frankly, I was disappointed. The book is a little short on real-life examples. I also find the wording used to describe childhood depression and suicide off-putting. I do not think it was intentional, but there are sentences that sound as if the child is to blame for the condition, which is absolutely not true. On a positive note, the book does include vocabulary and has a nice, clear, and followable structure. However, I would not suggest this text unless the sections regarding abnormal psychology are revised.

It’s not a bad book, but some of the wording is confusing and not as clear as it should be for a book used for education purposes.

It got here really fast and it’s exactly what I needed. it was a little pricy, I found cheaper websites after I had already ordered it but I guess that’s just my luck. ÃƒÂ Ã Å¸Ã ËœÃ Â•

Great book, has a lot of information and it came nicely packaged, not damaged at all ÃƒÂ Ã Å¸Ã ËœÃ Å

Great book! On chapter 4 but continuing interesting info..

PC worldview with many contradictions. Comprehensive and easy to read though.
