Customer Reviews

St Petersburg and the Hermitage are high on my bucket list which is why I purchased this book. Written by someone with a passion for the museum it is worth reading. although not written in a sophisticated style it does provide all of the necessary information to plan a visit.

Saw the ground and 1st floor with guides. Selective but an hour was fine. On our own enjoyed the 2nd floorof Picasso, Gaugin, Cezanne, Monet, Renoir, Matisse, etc. etc.

I’m planing a trip to visit Russia’s most beautiful places and I came across this guide which looks really good and has lots of good information. I’ll take my Kindle with me so I’m pretty sure I won’t need a guide :) More money left to spend on Russian vodka :)

This was a really great BASIC guide for the Hermiage that I downloaded to my Kindle and took with me to the museum. The highlights were named along with a brief history of St. Petersberg.

Ok. Not enough content for art lovers

You gotta be kidding me. Some verbage and severasl photos and that’s it. I could have googled it and gotten more.

The book does not provide much information about the Hermitage. It contains more information about St Petersburg’s history and weather.

Not useful. It is not well written or researched.
