Synopsis

Now Ruth Montgomery, the acclaimed bestselling author of Threshold to Tomorrow, joins forces with Mr. A. the most amazing healer of our time, to tell the story of his extraordinary powers and the astounding yet completely authentic cures he has achieved in over a half century of treating seemingly "hopeless" cases.These cases range from crippling arthritis to malignant tumors, from paralysis to near-blindness. The grateful patients include many famous personalities as well as thousands of ordinary men and women. The method Mr. A uses is the most ancient of all healing arts, "the laying on of hands" utilizing the vital life energy he has been blessed with. This energy is real, just as the cures described in this book are absolutely real and convincing. Here is both the enthralling story of a remarkable man and an eye-opening illumination of a great untapped source of healing that may lie within many of us today.From the Paperback edition.

In my spare time, I am a massage therapist, so, I was especially interested in reading this book. In it, Ruth Montgomery tells the true story of Mr. A, a gifted healer who uses the ancient art of "the laying on of hands" to cure seemingly hopeless cases from paralysis to tumors to crippling arthritis. His is a fascinating and dramatic story. It’s no wonder this book was a national bestseller when it was first published in the 1970s.M. In the book "Search for the Truth" by the same author, she mentions in passing an amazing healer. (It seems that although the healer is anonymous in this book, his name was William E. Gray) This book is the story of his life. All I can say is "wow". Apparently he did try to describe how he operates, in a much earlier book that I have also obtained, and called "Know Your Magnetic Field"One of the fascinating concepts here is that we each have different magnetic fields, and that healers, to be most effective, should align with the patient. He also suggests that your basic sign - fire, earth, water or air indicates the compatibility of our magnetic fields to a partner, and that its either energising or debilitating if you have the wrong life partner at an energy level. Geez, another thing to worry about?Published initially in 1976, this is a book about the most amazing healer to have walked this planet. And that I think includes Jesus of Nazareth. It would not be fair to compare this anonymous individual to Jesus in any other respect, but given that he spent his whole life healing, and that he healed the most amazing conditions, I think that statement is warranted. I think that this book could just be the most impressive book I have ever read. So what is so amazing?Firstly this individual was so connected to spirit, over his entire lifetime, that he learnt exactly what he was doing and why. And thus he has set out a conceptual framework as to why we suffer from disease and even mental illness, and what to do to remove these conditions permanently. The framework makes a great deal of sense to me, as I have an electrical engineering background, and I am also a remote healer, so I have felt these "life energy currents"Were there any cases he could not solve? Well not mentioned specifically but if individuals did not return for the proper course of treatments, he predicted that their condition would return. In his own mind, he permanently resolved 9 out of 10 cases. It is interesting that he found that a longstanding case of arthritis would take many treatments to reverse. But he

never comments that "wear and tear" cannot be reversed, which is what we have been led to understand. And he certainly healed some folks very advanced in years.This book is based on research by Ruth Montgomery, and she refers to a much earlier book called "Know your Magnetic Field" that was written by this individual's nurse, and in close collaboration with the healer himself. But she neglects to mention that she pretty much has extracted all of that book as source material for her book. Which means of course by obtaining that earlier book, you can get a good insight into the material.

Package came as expected. This book is a remarkable account of a man who could heal with his hands. Written in the 70s and 80s, Ruth Montgomery documented her acquaintance with him, and saw the results of his healing, which he attributed to his ability to be the "instrument" of the 'Powers'. I would have liked to have more detailed description of the analysis of the people he treated, and the procedures, but this was an early book, written by a lay person who was formerly a columnist in Wash. DC.

I've read most of Ruth Montgomery's books and I find them all very interesting. This one is no different. I did discover the name of the healer to whom she was writing about and his name is Bill Gray. Through a little research, I found he wrote a book called Know Your Magnetic Field, which I also read, but have to say I was a bit disappointed. Although he shares some of his knowledge, I was expecting so much more from this particular book. It was redundant to Born To Heal. I would highly recommend Born To Heal to those who enjoy reading metaphysical material.

Great read!!

All of us have this power, most of us will never tap into it because we lack the awareness this book speaks to.I read this book many years ago and lost my copy then repurchased a copy through this site, it's like my reference book.Circuitry or energy,,,,,we'll come to realize it is all the same and when balanced we are healthy,Lori Houde

Read these books about 30 years ago. Bought them again for a new age friend. They are nice reading if you are in to automatic writing

Bought this book for my wife who practices energy healing. She loved it and has recommended it to

some of her students.
